I wanted to create an article about Roblox because it is my favourite online game. I am also writing this blog with the intention to help my friends who are interested in trying out the game. Roblox is free to play and it is very active almost every day of the week; it's a great community as well. I wanted to create an article about how much of a good experience playing roblox has been for me and why I would recommend it to anyone wanting play a free game on their time off or even during school hours.

I have always wondered why people enjoyed playing Roblox so much. I think it's because it's very similar to Minecraft in many ways; for one thing, the graphics are very childish which got me interested at first. Because the game is customizable, you can choose to look at the world through a little boy's eyes or that of an adult. I chose to be an adult for a time, but it was always hard to play because it would become so boring. But at some point when I was playing Roblox, my interest in it started to fade away. The reason for this is because of the new updates they made to Roblox. Now there are so many advertisements everywhere and so many games being added every day. You never play with friends because everyone has their own account and their own games they are playing. Even if your friends are on, you have no idea who they are because they could just be anyone.

Unfortunately, these advertisements were run-of-the-mill ads and did not produce any revenue for the company itself but also had a negative impact on their community as they were being flooded with ads featuring nudity, extreme gore, racism and other inappropriate content. In addition to this, many games would feature these ads despite not making any money from them themselves. ROBLOX was banned from Xbox Live in 2021 due to the game running advertisements which violated Microsoft's Terms of Service by being inappropriate for children.
