Please fix the bug that stops you from playing games and then when you log back in the game glitches and makes it start over again. It makes me very frustrated because I spend a lot of time on this app. So please fix this bug! Roblox is an amazing game but there are some issues with it. My main complaint is that when I play games so many people are rude to others but there's no way to report them or mute them and this to me makes Roblox not so fun anymore and sometimes boring because everyone else around me is just being mean when they don't have to be. There are so many cool things about the game I don't know where to begin. But the one thing that I love the most is that you can play with your friends and you can talk to them through out the game. Let's just get started shall we? I love this because it's so easy and simple. All you have to do is type in your username or email and it will find your account. Then when you are done playing a game and want to do something else click the log out button and you will be brought back to the main screen like when you first logged into roblox. This makes it easy to restart games or to go back to your profile. The first thing that I noticed right off the bat is that this app is a lot better than the one I had before. Because of this I have my hopes up for the future of roblox and how it will be in the years to come. This app gives you a ton of stuff but it leaves out some stuff so I decided to make a suggestion about fixing bugs and glitches with the app but not just bugs in general. What I really like about the app is that you don't have to rotate your phone. Sometimes when I play on roblox I have to get out of bed and turn my phone around because it's upside down because I was in bed. Thanks for eliminating that problem! This is a new feature for the game and personally I think that it is so much better than the old one. It shows you how many fans, bangs, and people are in each group you are in. This makes it easy to know how active you are on roblox.

Roblox has been criticized for bombing players with harassing messages that appear on screen. In 2021, The Washington Post claimed that they were able to set up a fake email address in order to send players fake emails. On November 29, 2021, it was announced that they had removed the ability for players to send fake messages and that they were working on a new update that would do this.

I was also kind of surprised at how far back the game went in time; it was created back in 2021, which I know is quite a long time ago. It's kind of scary how quickly things have changed since then. But though I am young, I thought that Minecraft was always meant for little kids; unlike Roblox, it wasn't purchased by me or my parents, and there were no advertisements present. So my opinion on both games is that they are really great for

little kids because they're safe and easy to use. For adults, they are not worth the time. But from what I have heard, and from my own experiences, Roblox is a game that all kindergartners should be playing. It's definitely not recommended for adults or even teenagers.
